

Environmental Sustainability Initiative

At MPM we are committed to embarking on a decarbonization journey to mitigate the impacts of climate change. Our goal is to achieve a 50% reduction in our Scope 1 and Scope 2 emission intensity (per unit of revenue) by 2025. We recognize the urgent need to act and have already implemented several measures to contribute to this target.

We understand that the path to decarbonization is a journey that requires continuous effort and adaptation. We remain dedicated to playing our part in building a sustainable future and are pleased to report that we've reduced our Scope 1 and Scope 2 emission intensity (per unit of revenue) by 55.5% from 2021 to 2024.

MCDONALD PLASTIC MOLDING	Base Year 2021	2024
Scope 1	8	84
Scope 2	6,919	3,001
